

Trantec spiral conveyors

Trantec offer a comprehensive range of flexible screw conveyors with capacities from 100 to 8000 litres per hour

- **Dust free**
- **Low maintenance**
- **Low power consumption**
- **Easily cleaned**
- **Volumetric consistency**

Features include...

Variable flow control
Multiple inlet/outlet options
Round, flat and square flight profiles
Heavy duty options
Fixed or mobile installations

The ideal choice for a wide variety of conveying applications where low noise, ease of maintenance, hygiene and dust control are essential.

Trantec flexible screw conveyors utilise the latest UHMWP tubing offering full compliance with all EU and US food regulations.

In congested installations Flexible conveyors simplify the transfer of product and avoid costly alterations to existing plant.

Employed extensively in food, chemical, plastic and pharmaceutical industries, Trantec spiral conveyors are the logical choice for customers who demand a reliable high quality transfer system at a realistic price.
