

## Trantec fibc dischargers

The logical choice for customers who demand safe, reliable and complete product discharge

- **Dust Free discharging**
- **Minimal down time**
- **Quiet in operation**
- **Easily cleaned**
- **One man operation**

Features include...

Variable bag height adjustment  
Mobile or static installations  
Pneumatic bag conditioning  
Multiple bag units  
Integral hoists  
Low head room operation

Increasingly the choice for many manufacturers, Flexible Intermediate Bulk Containers are the most cost effective packaging media for intermediate bulk products.

The benefits of this type of packaging are fully realised by the Trantec range of FIBC Dischargers.

Trantec dischargers ensure the complete discharge of FIBC's under controlled conditions in complete safety.

Models are available for free flowing and poor flow materials and can be supplied stand alone or in multiples.

Employed extensively in the food, chemical, plastic and pharmaceutical industries.
